CONTENTS

Chapter 1. Objective and Motivation	1
1. Motivation of study	1
2. Objective and scope	2
2.1. The present condition of using the land of each river in Yong IN, the basic condition and analysis	2
2.2. Survey and BMPs of Non-point source	3
Chapter 2. Methods	5
1. Selection and methods of specific area	5
1.1. Selection of specific area	5
1.2. Survey and water analysis methods	6
2. Cause of non-point source and management measure	7
2.1. Cause of non-point source	7
2.2. management measure of non-point source	7
Chapter 3. Result and Discussion	8
1. Result of each river non-point source characteristic	8
1.1. Characteristic of preexistence Yong In city's non-point source	8
1.2. The characteristic of non point source during precipitation	17
1.3. The characteristic of non point source during non-precipitation	36
2. Cause of non-point source and management measure	39
2.1. Cause of non-point source	39
2.2. Non-point source management measure of the city	41
2.3. Non-point source management measure of the non-city	45
Chapter 4. Conclusion and Future Plan	46
Chapter 5. References	47
